

Group Contribution Form

Note: Submit this form along with your Assessment 2 submission.

This Group Contribution Form aims to evaluate each member's individual contributions to a group project. It assesses each student's participation, collaboration, and level of effort, ensuring that everyone is fairly recognised for their work. This form enables students to reflect on their contributions and provide feedback on their peers, promoting accountability and a clearer understanding of each group member's role in achieving the project's goals.

It is unfair for those who didn't contribute to get the same grade as those who made a significant effort.

- ☐ **Option 1:** We acknowledge that every group member has made a significant contribution, and we believe that it is equitable for each member to receive an equal score for Assessment 1.
- ☐ **Option 2:** We believe that not all group members contributed equally. We request that our scores be adjusted according to each member's contribution percentage, as shown below:

Student #	Student Name	% Contribution
S3976017	Lachlan Deck	40%
S4092047	Patrick Ly	60%

SIGNATURES

Student 1: Lachlan Deck

Student 2: Patrick Ly
